<sup>1</sup> Volumes reflects the number of bound paper volumes, including copies, volumes in a title, and eBooks

<sup>2</sup> Titles reflects the number of titles for all items, regardless of format.

<sup>3</sup> Total patrons for 2014 was estimated due to a system failure during May/June, hence no data was collected during that period.

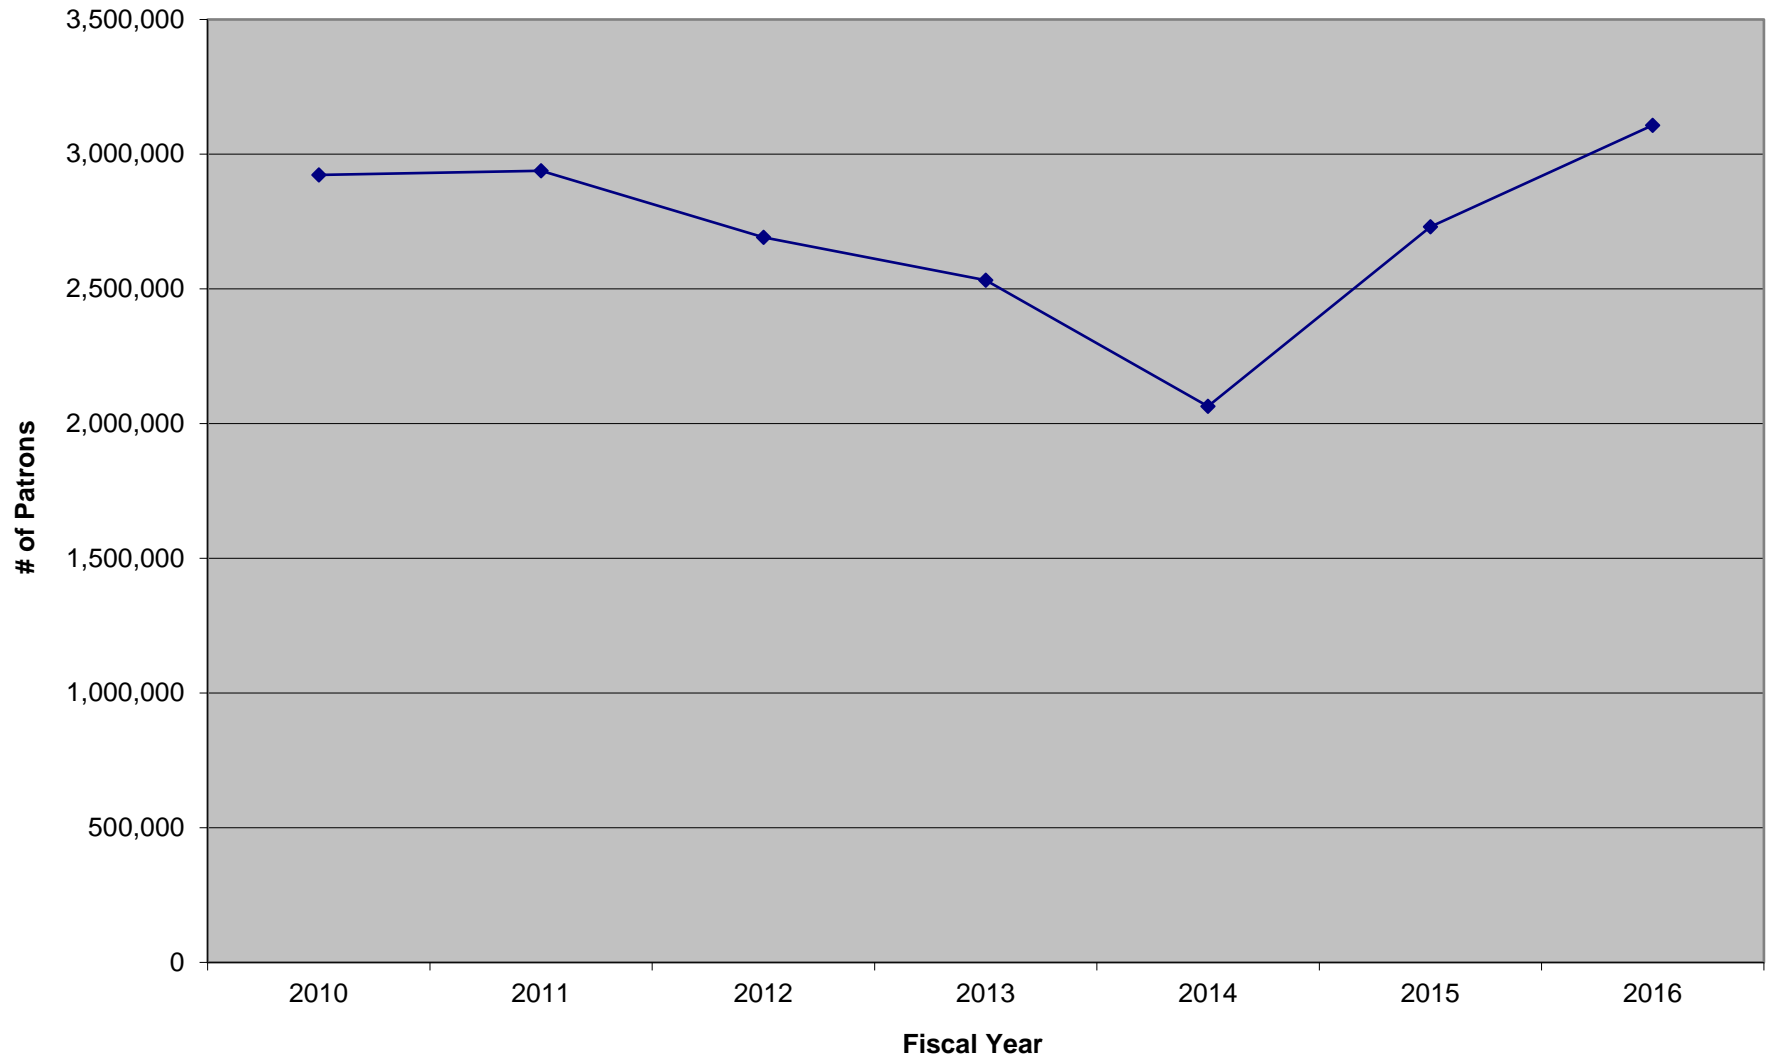

<sup>4</sup> The large increase in patron counts for 2015 is primarily due to the completion of the new South entrance to the library in September. This has carried over in to 2016 with a full year worth of data to affect that count.

<sup>5</sup> The manner with which the number of titles was determined was changed in 2014 and again in 2016, most recently being provided by the library's IT group.

<sup>6</sup> The manner to determine eBooks changed for 2016 and hence shows a significant increase.
