[1] Volumes reflects the number of bound paper volumes, including copies, volumes in a title, and eBooks

[2] Titles reflects the number of titles for all items, regardless of format.

[3] Total patrons for 2014 was estimated due to a system failure during May/June, hence no data was collected during that period.

[4] The large increase in patron counts for 2015 is primarily due to the completion of the new South entrance to the library in September. This has carried over in to 2016 with a full year worth of data to affect that count.

[5] The manner with which the number of titles was determined was changed in 2014, 2016, and again in 2020.

[6] The manner to determine eBooks changed for 2016 and hence shows a significant increase total volumes.

[7] The final figures for 2017 are estimated because of a gate change that occurred in November and the inability to extract daily stats from the system collecting that data.

[8] The system to monitor patron counts at the gates was not collecting data during 2018.

[9] A new system to collect patron counts was brought on board in 2018 but not able to collect stats until March 2019, hence these figures are estimated.

[10] Patron counts for 2020 dropped significant due to restrictions imposed because of COVID-19

[11] Stats, including graphics, were not kept during 2021 in Special Collections due to COVID and personnel issues
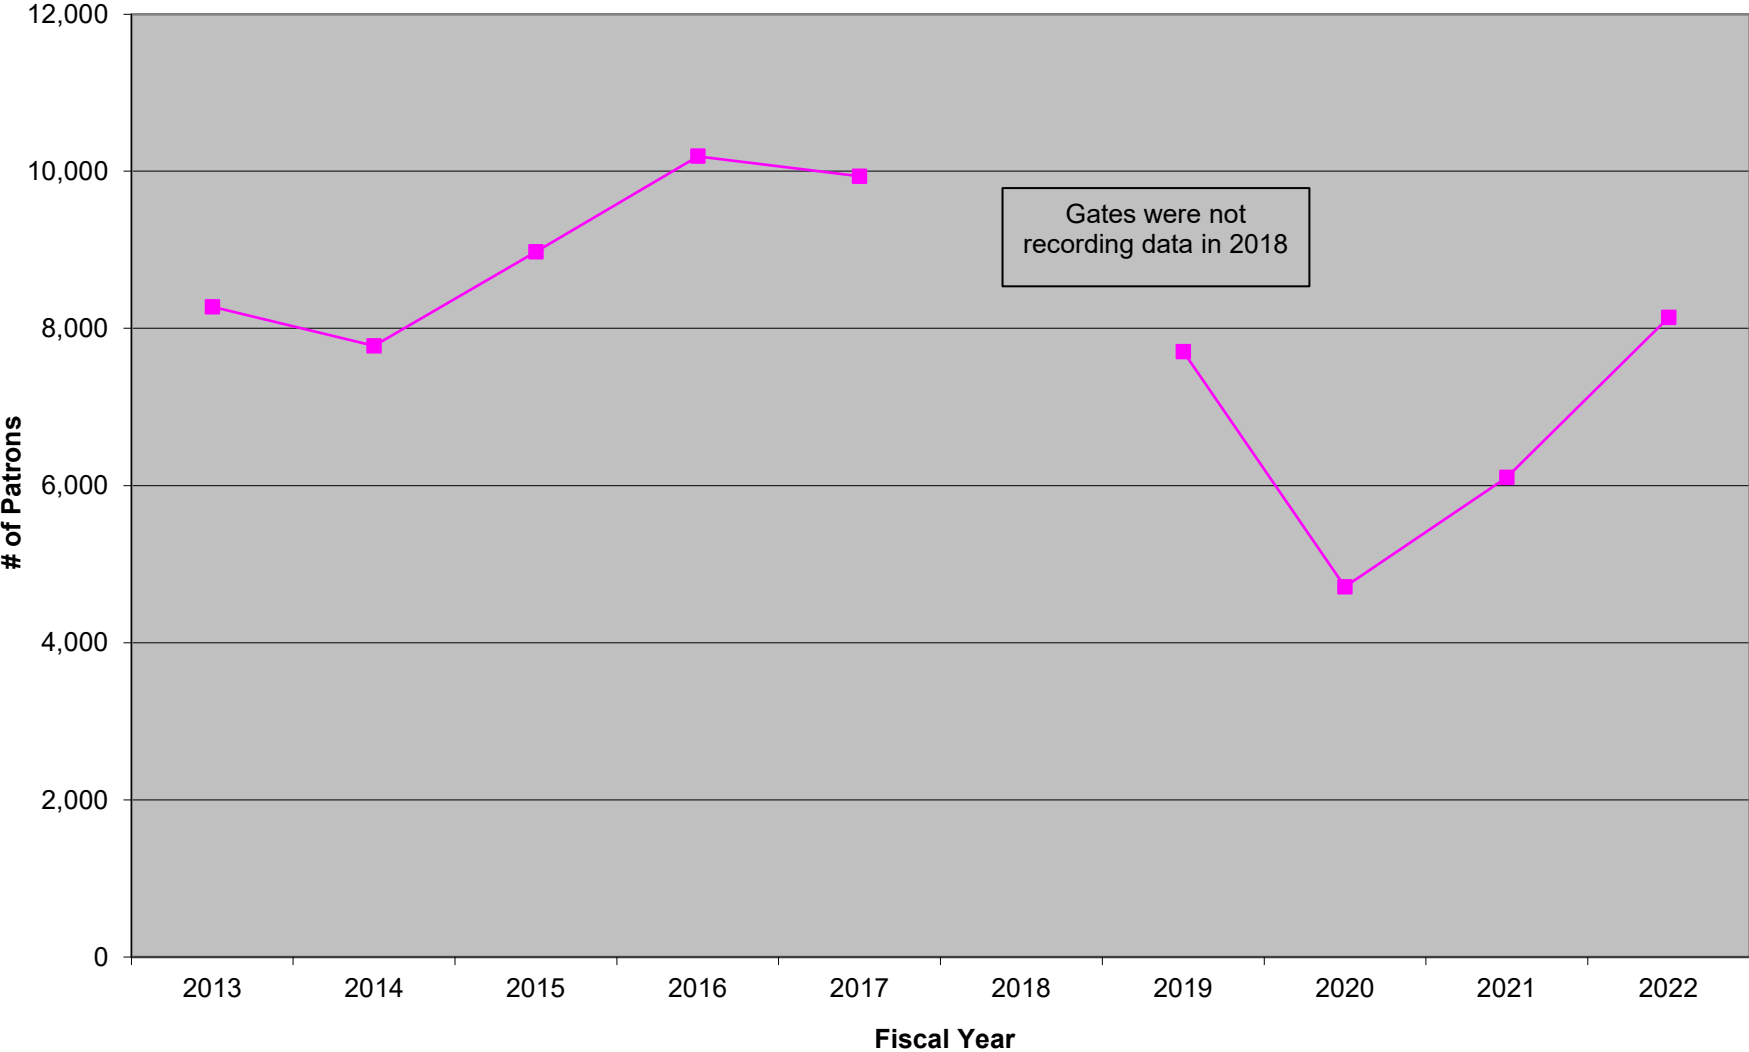

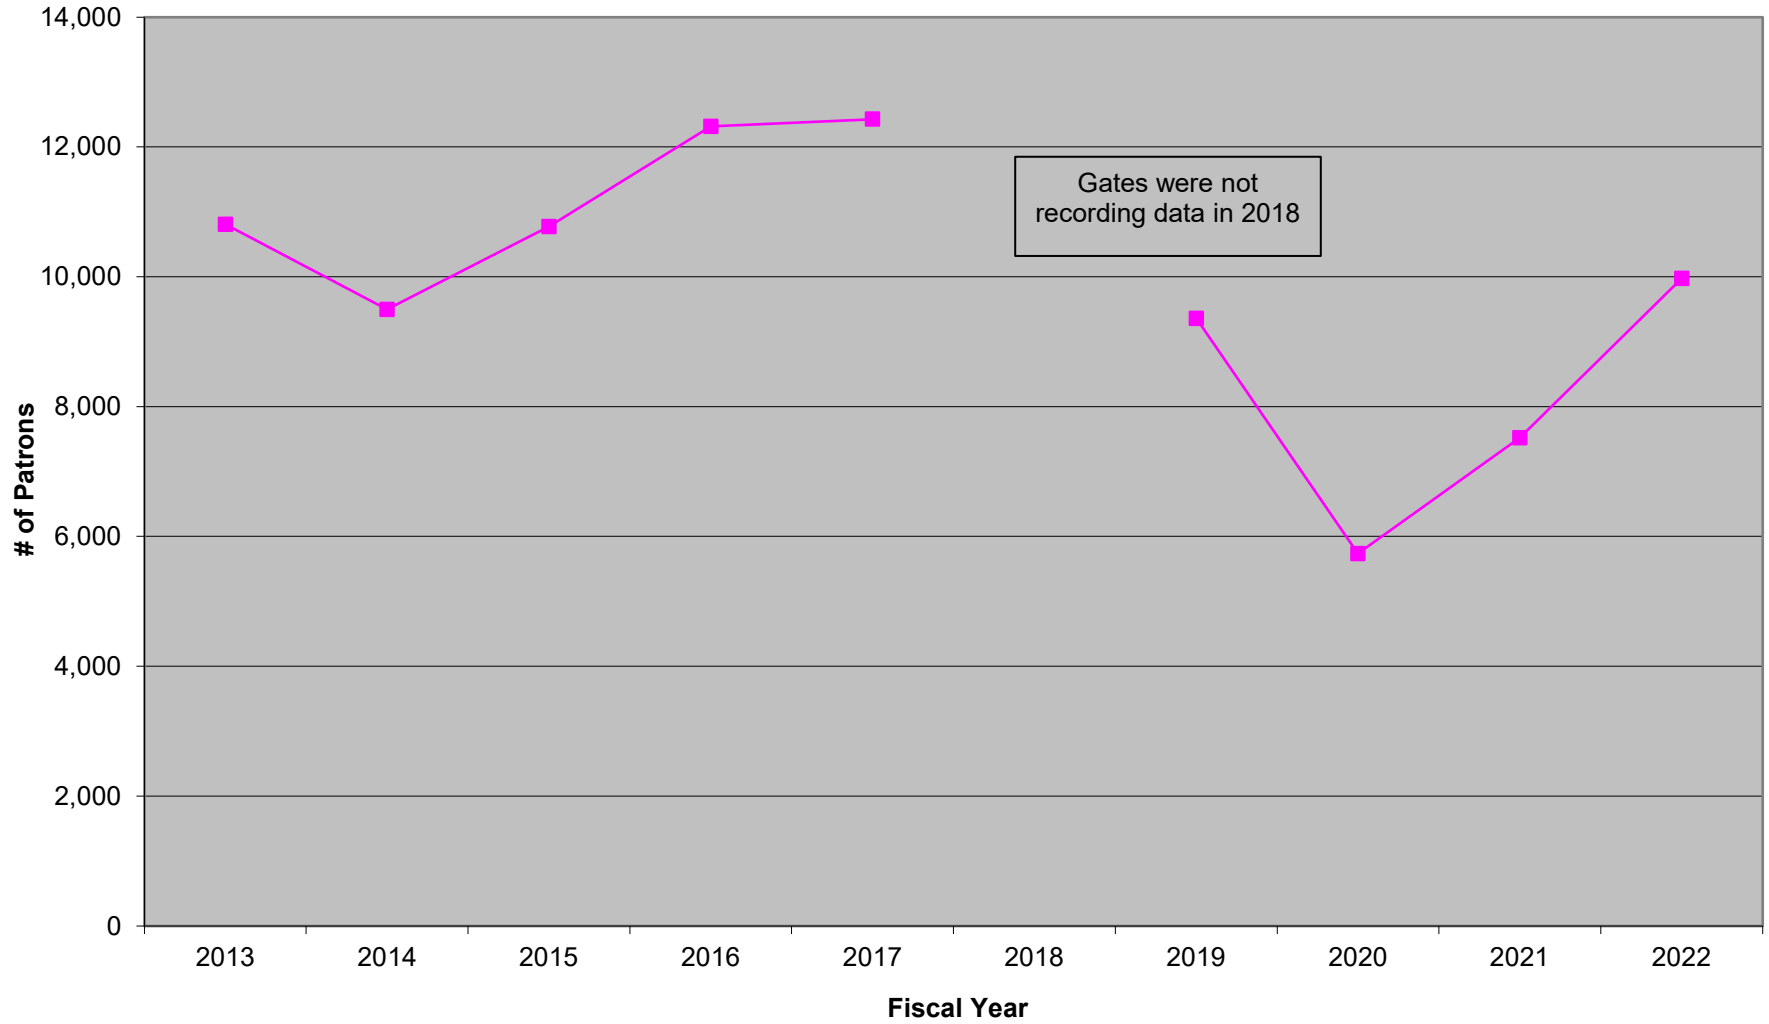

Total Patrons

Volumes
(All printed, typewritten, handwritten, mimeographed or processed works, including bound serials/periodicals, that have been cataloged, classified, and made ready for use)
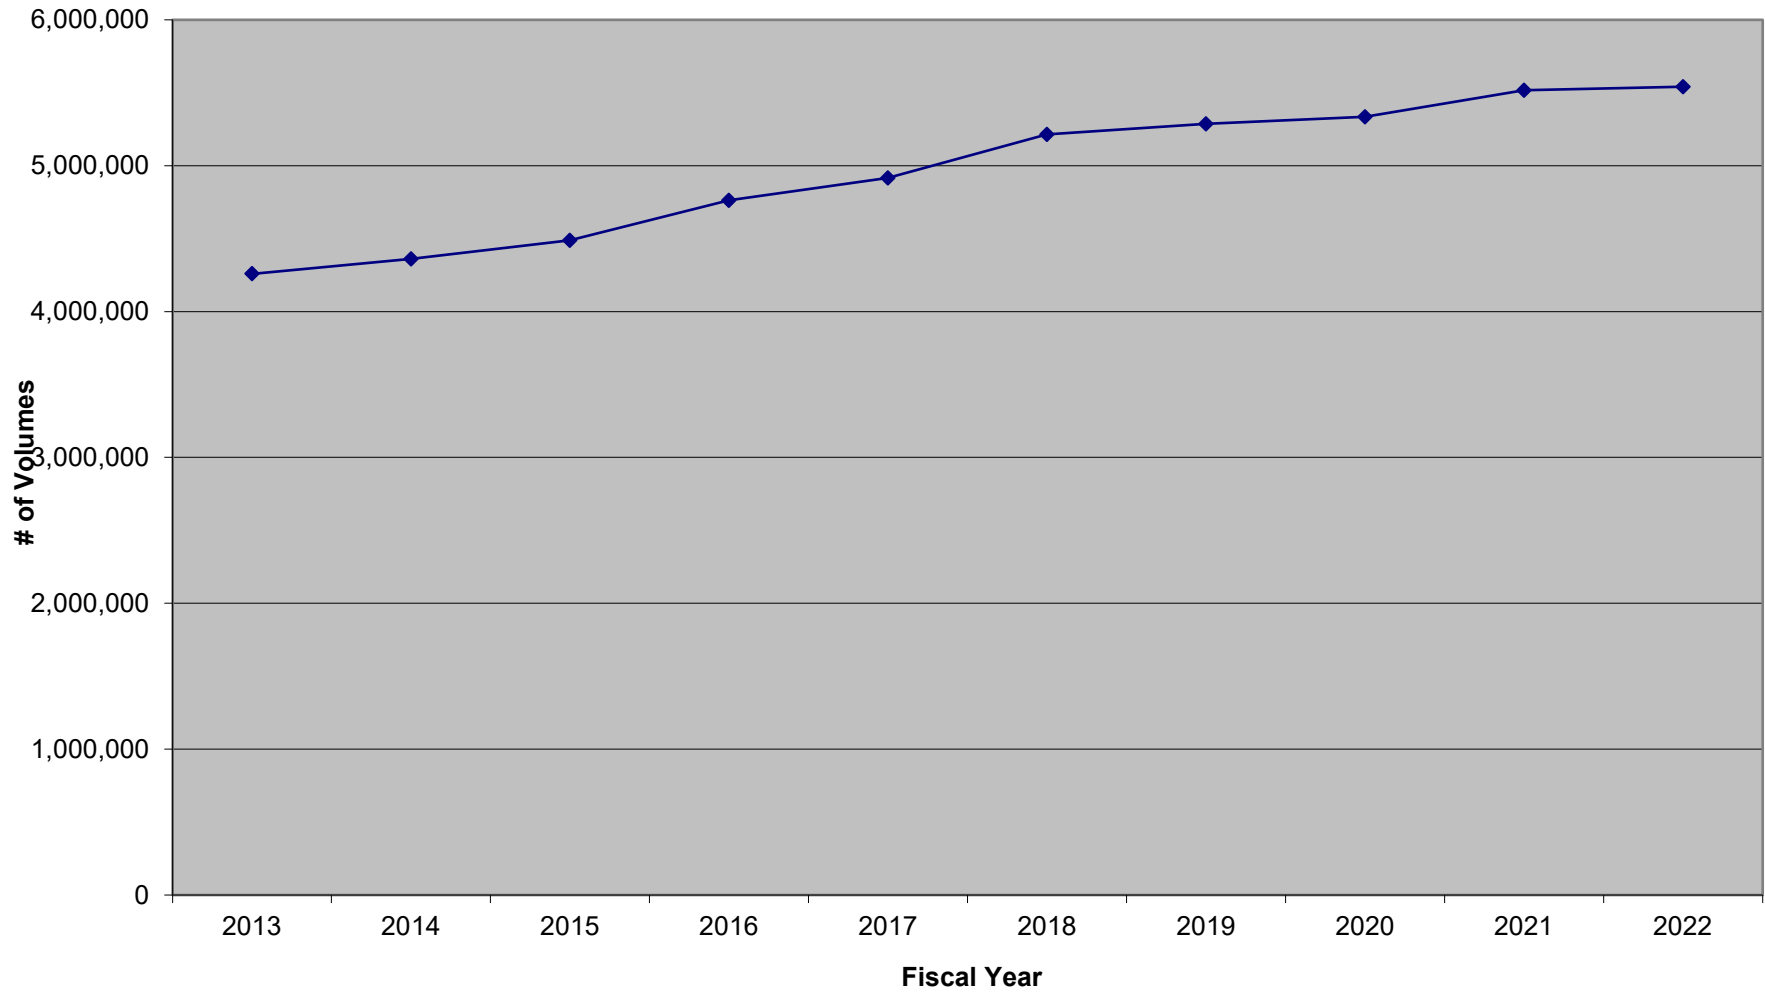

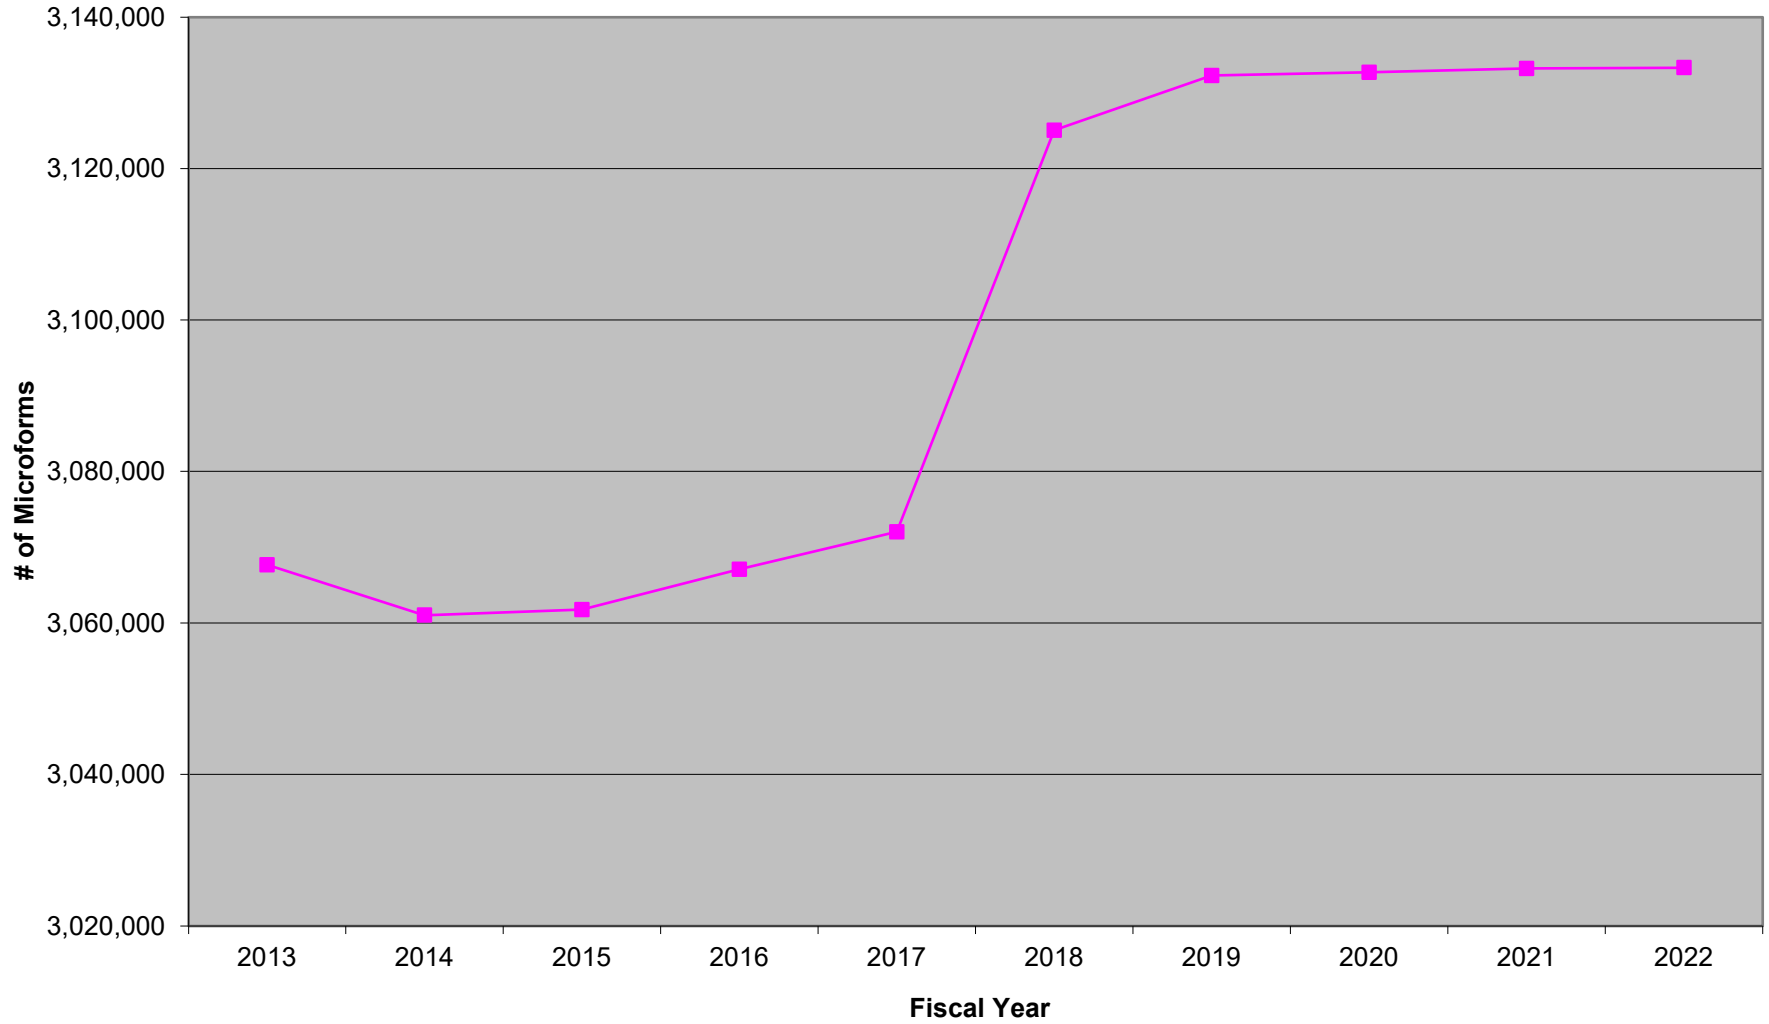

Serials & Periodicals
(Includes purchased & gift - paper, microform & electronic)

Microforms
(Includes microfilm, microcards, and microprint and microfiches sheets)

Government Documents
**(Number of documents NOT included in Volumes, Serials, or Microforms)**
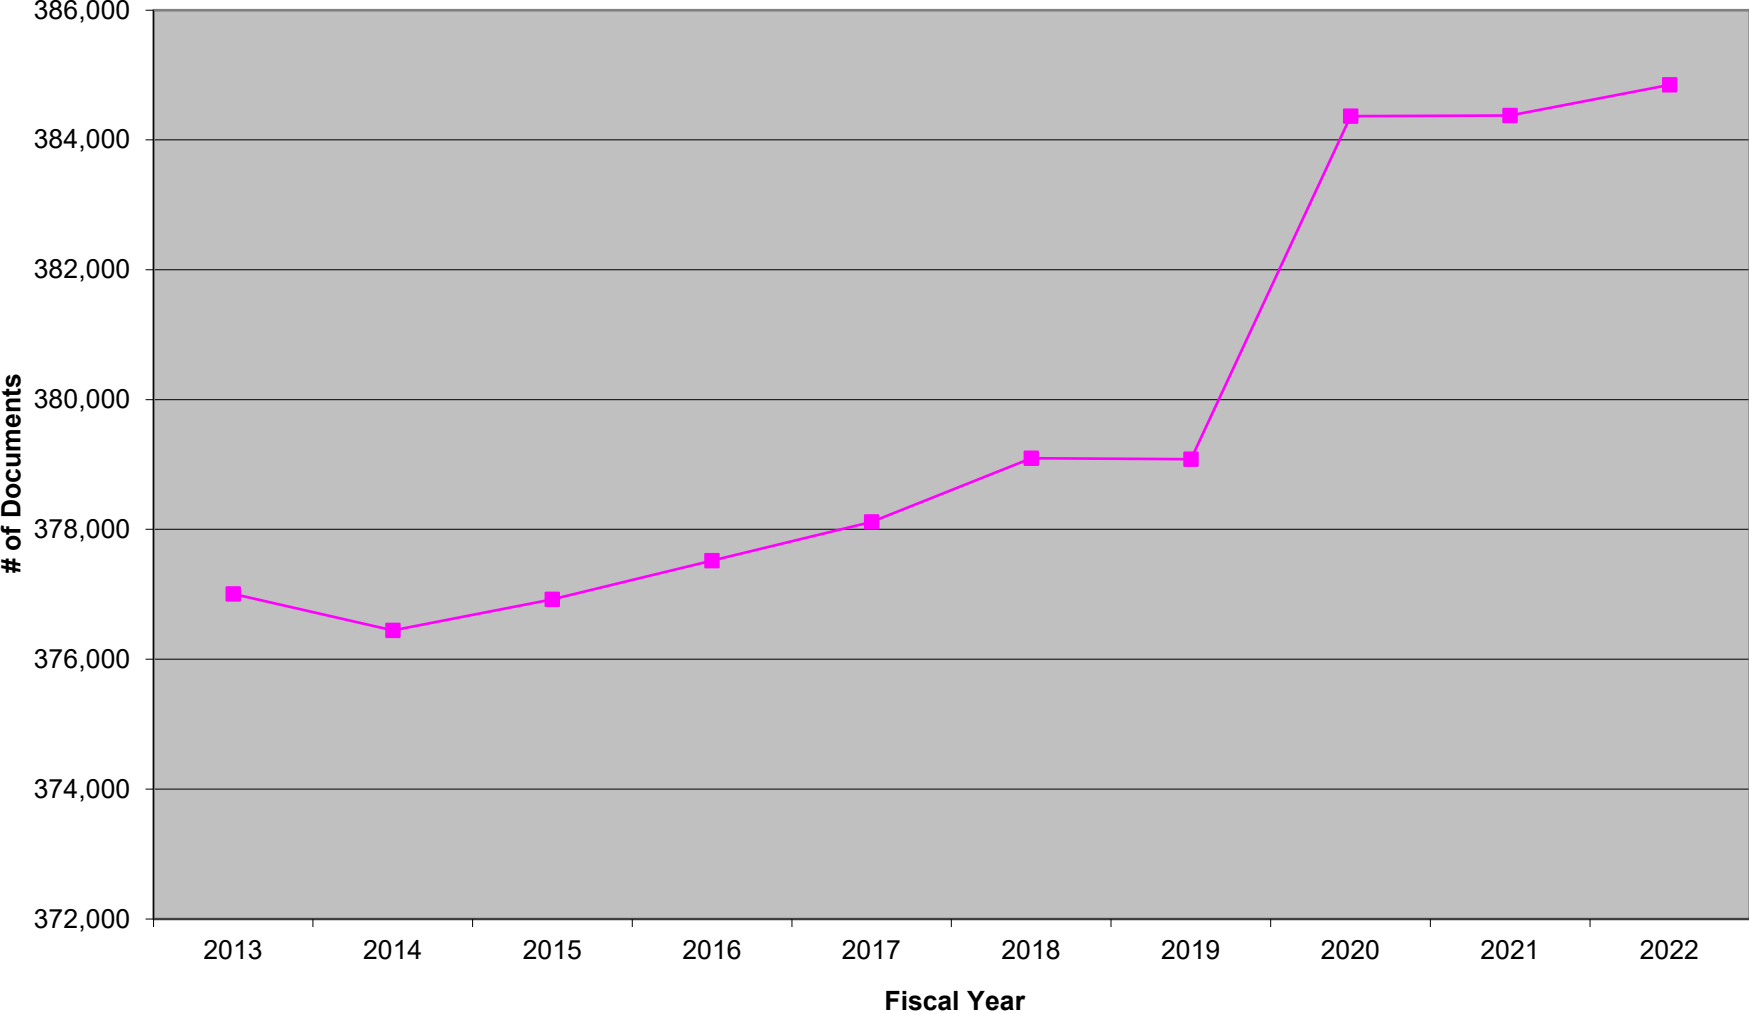

Cartographic Materials (Maps)
(Includes all two- & three-dimensional maps & globes and satellite and aerial photographs and images)
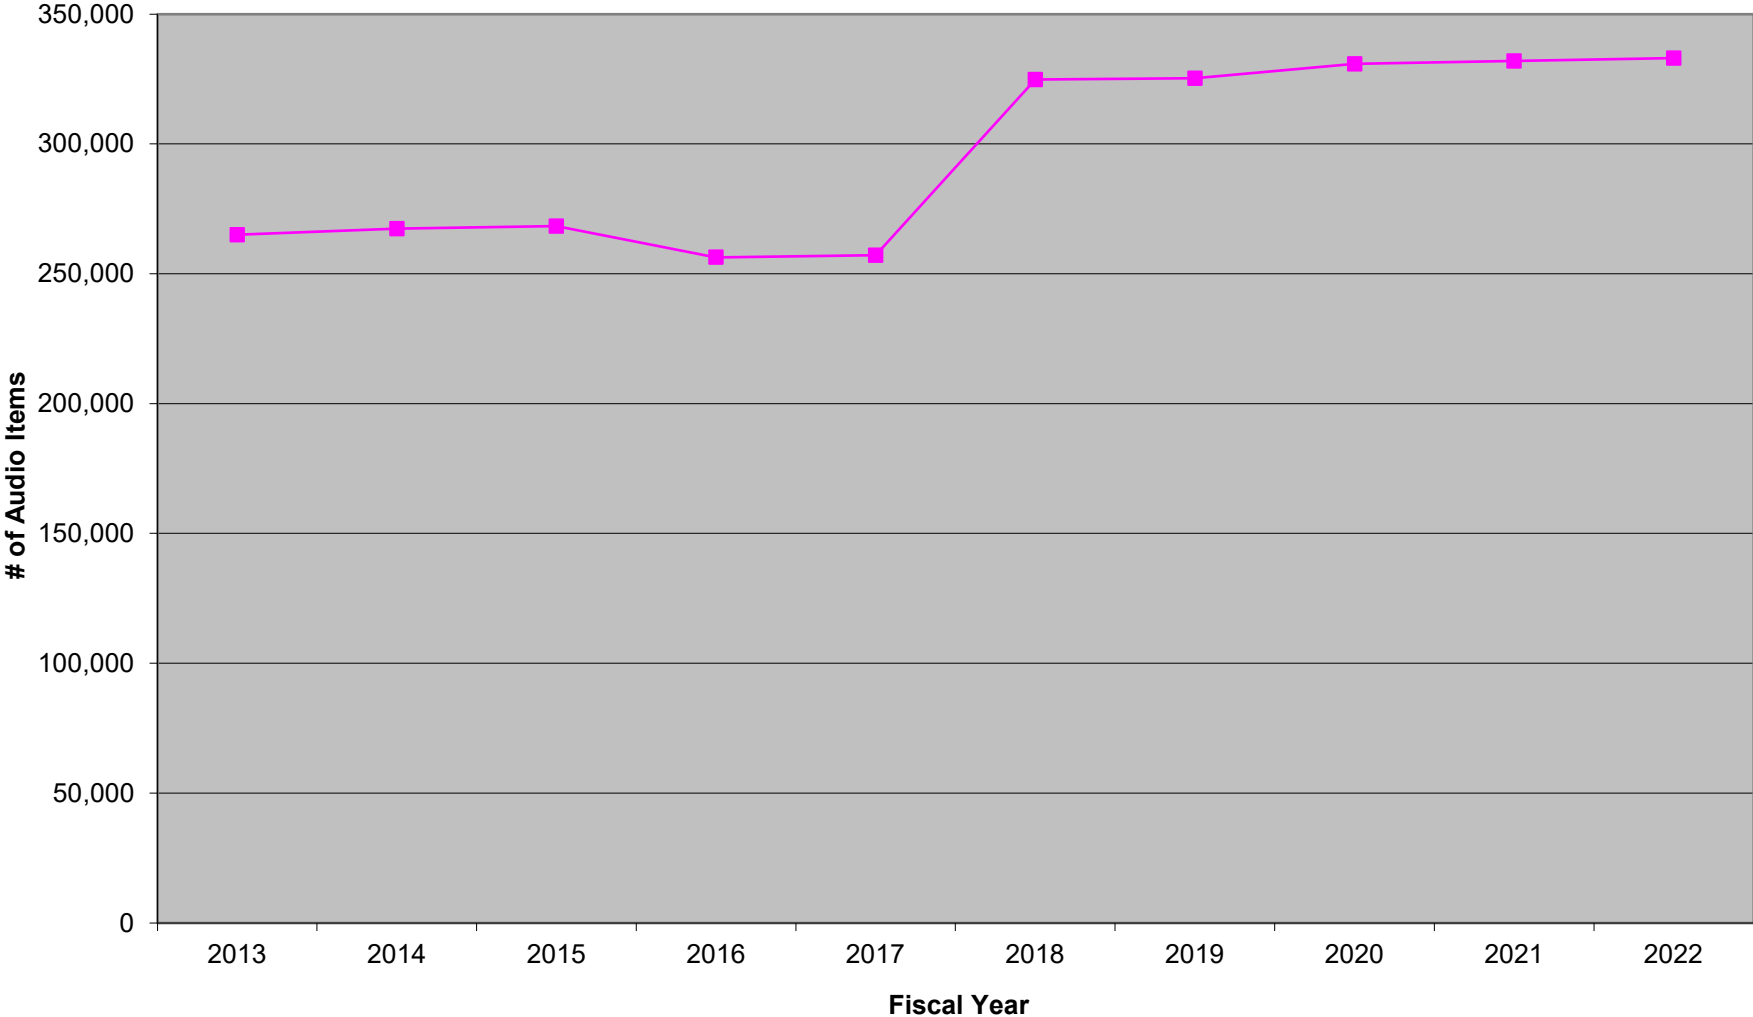

Graphic Materials
(Includes the number of prints, pictures, photographs, postcards, slides, transparencies, film strips, and the like)

Audio Materials
### (Includes audiocassettes, phonodiscs or LPs, CDs, reel-to-reel tapes, DATs and other sound recordings)

Film & Video Materials
(Includes motion pictures & films, video tapes of various formats, video discs (CED, Laser & DVD), and other video materials)
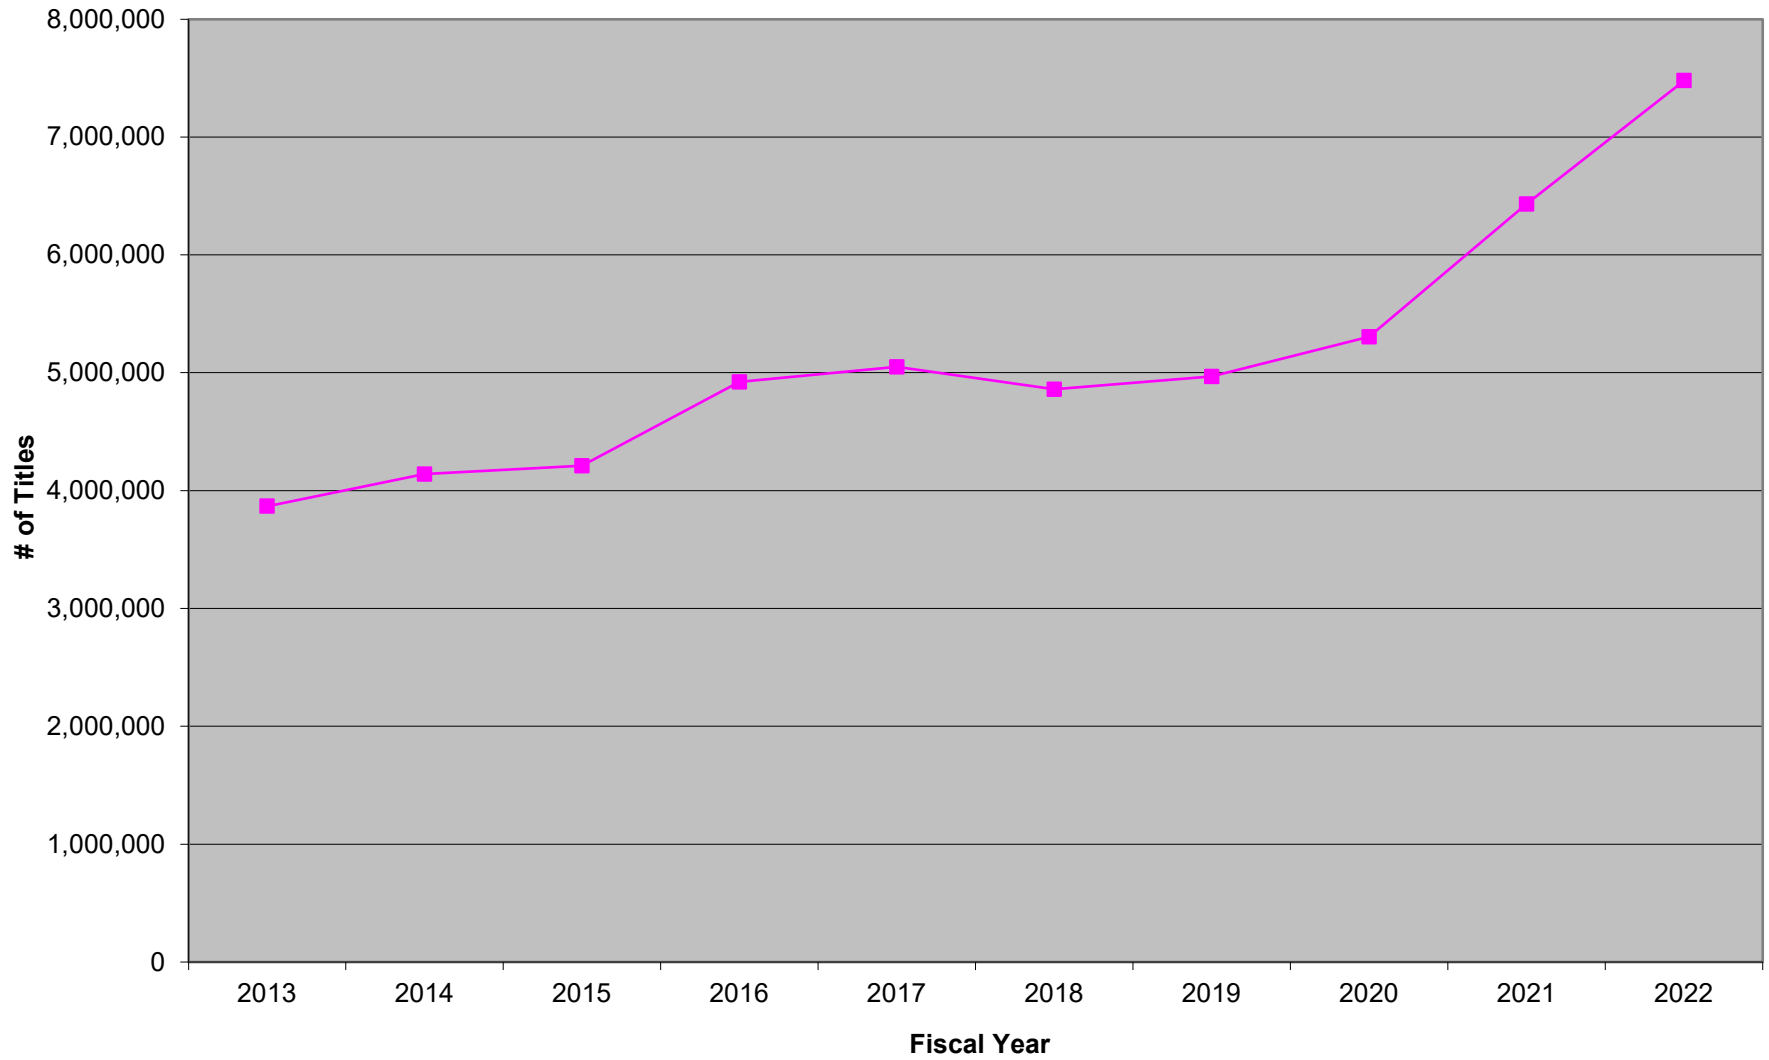

Total Materials
